

Periodic Table Element Search

Find element(s) that correspond with the following. For each element, tell me three things: a) atomic number, b) element symbol, and c) full name. Spelling and capitalization count!

- 1) An element with a funny name
- 2) An element named after a famous scientist
- 3) An element named after a place
- 4) An element you use every day
- 5) An element that is bad for your health
- 6) An element whose name you do not know how to pronounce
- 7) An element whose symbol doesn't "make sense" or is very different from its name
- 8) How close can you get to spelling your name with only element symbols?
- 9) Optional: Tell me a joke using only element symbols.
